Event report

Event Name: CDE LECTURE AND WORKSHOP- LAMINATE VENEERS

Guest Speaker : Dr. T. Durga Prasad

Date And Time: 21 st September; 9.30am

Venue: Neerukonda Raghavaiah Auditorium NRIIMS

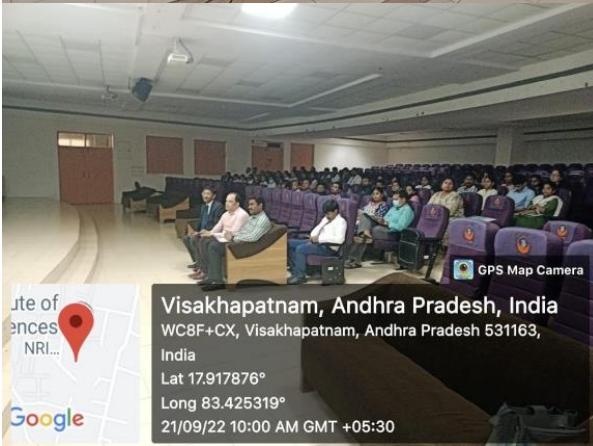

The CDE lecture and workshop on laminate veneers aimed at bringing the participants up to date on various aspects of laminate veneers including case selection and the most appropriate type of treatment as per the case with a distinction between the conventional and minimal preparation variants.

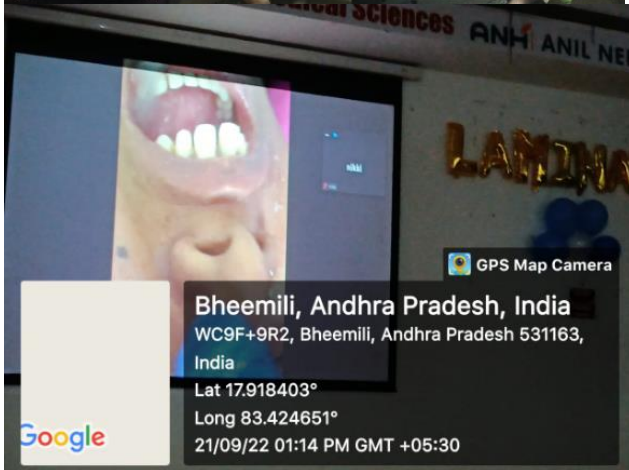

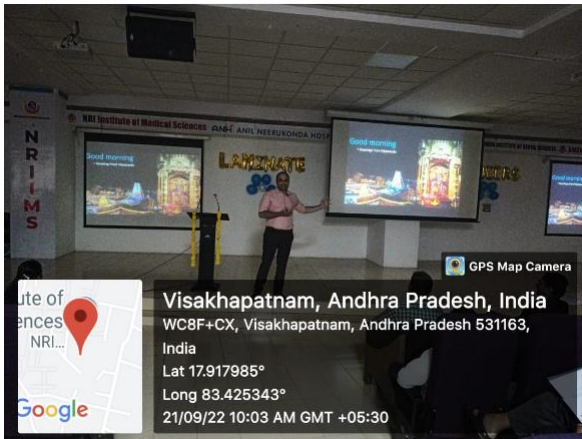

The program started with a prayer song and inaugural session followed by the main program with a lecture by the guest speaker of the day Dr. T. Durga Prasad on the topic "laminates and veneers- tips and tricks" giving a brief idea on the diagnosis and treatment planning, case selection and laminate./veneer variants including completed case reports & a videographic demonstration of the techniques.

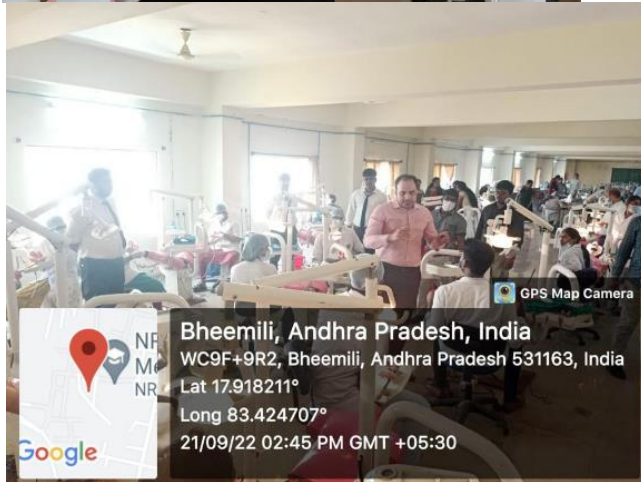

Soon after the lecture the guest speaker was felicitated by the Vice Principal, Dr. Anil Chirla, as a gesture of appreciation. In continuation of the program, a live clinical demonstration of laminate preparation of a central incisor was performed by Dr. T. Durga Prasad on a patient and was followed by a demonstration of temporarization. The live demo was telecast from the department via Zoom to the audience seated in the auditorium.

The afternoon session consisted of a hand-on module involving all the participants. All the participants have prepared laminate and veneer preparations on typhodont model teeth 11 and 21.

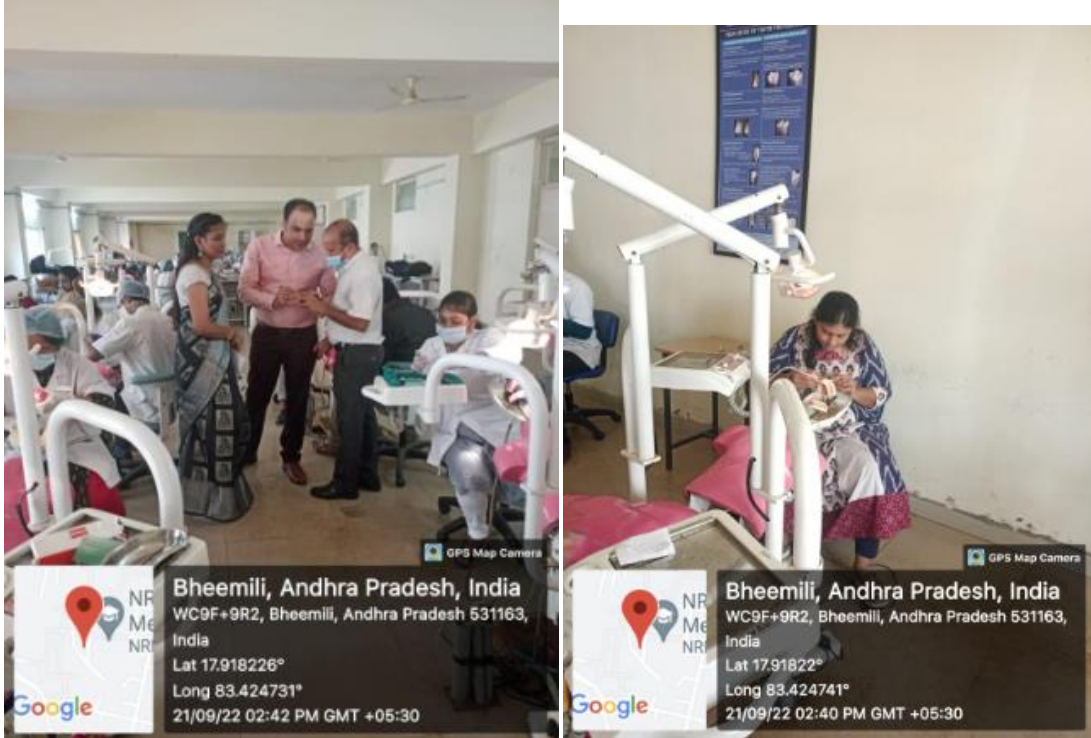

A total of 90 participants for the lecture and 35 participants for the workshop participated. Feedback forms were collected from all the participants
